

"Client" reference:

for Michael Howarth, DipArch, RIBA, AABC

To Whom It May Concern:

I am honoured to have been asked to be a client reference on behalf of the above.

Mr. Howarth has been the architect for our church of St. John the Baptist, Fortuneswell, Portland; at a time of major restoration. He has a kind and helpful spirit, presenting a lively, witty mind which hides a determined seriousness that helps him perform the duties appointed to him in a correct and precise manner.

He is detailed in all his work, giving an air of trust and confidence. Nothing is too small for him, and is always happy to explain things in layman's terms to help promote understanding. He has helped our church move forward with a positive step being ready to guide and advise were necessary.

A strong point of his is his organizational skills and the way he seems to enjoy problems which he seems to deal with easy and imagination. Variety is most definitely the spice of life for Michael.

I have no problem putting forward Mr. Howarth for the recommended architects list and believe he would be an asset to all whom come into contact with him.

Thank you.

Ian Phelps
Churchwarden
